WHAT is LaTeX?!

LaTeX is a powerful document preparation system, well-suited for technical documents, in particular those that contain mathematical expressions, tables, figures and references.

WHY LaTeX?!

- Price: Is freely available for all major computer platforms.
- Quality and Aesthetics: Can produce organized nicely formatted documents.
- Editing, versioning and outputs
- Takes care of **automatic numbering** of sections, equations, tables, figures, theorems and references.
- Focus on Content
