1 Overview on Funding Programmes

The following overview contains information which I took from the respective webpages.

1.1 DFG¹

The DFG offers different funding programmes:

- Individual Grants Programme
- Coordinated Programmes
- Excellence Initiative
- Research Infrastructure
- Scientific Prizes
- International Cooperation

Some of these will be presented in further detail in the following subsections.

1.1.1 Individual Grants Programme - Research Grants

- Central form of the research funding
- Used to fund staff, scientific instrumentation, consumables, travel as well as most other financial requirements
- Institution hosting the project is required to supply the necessary core support and resources
- Different modules
- Duration based on individual project needs, several years
- First proposal: no submission deadline
- Renewal proposal: at least 6 months before the approved funds have been exhausted

1.1.2 Individual Grants Programme - Scientific Networks

- Objective: scientific exchange and cooperation on topics of common interest, to strengthen the ties to the international research community
- Group of people who will work on a common research topic to attain a specific outcome
- Duration up to three years
- Members may include young and senior researchers from Germany and abroad

¹ http://www.dfg.de/en/research_funding/programmes/index.jsp and subpages, 30.07.2012

- Travel and maintenance costs for 3-6 meetings, funding for up to two guests per conference, miscellaneous costs, publication allowance
- No deadline

1.1.3 Individual Grants Programme - Research Fellowships

- To enable researchers at an early stage of their career to carry out a clearly defined research project at a place of their choice abroad or to acquaint themselves with anew scientific research methods
- Personal, non-transferable award, limited to a maximum of two years
- German researchers from all disciplines (doctorate) and international researchers from all disciplines (doctorate):
- Have been resident in Germany for several years and have completed at least three years of scientific work as a doctoral or postdoctoral researcher in the German research system and state that they wish to continue to pursue their research in Germany in the future
- Basic fellowship plus monthly lump sum payment to cover maintenance and travel costs incl. publication costs, children's supplement
- Up to 2 years
- No deadline

1.1.4 Individual Grants Programme - Emmy Noether Programme

- Supports young researchers in achieving independence at an early stage of their career
- Young postdocs gain the qualifications required for a university teaching career
- Young researchers from all disciplines up to 4 years after obtaining a doctorate, at least 2 years of postdoc experience, substantial international research experience (12 months during doctorate or postdoc or comparable scientific collaboration with researchers abroad)
- Foreign applicants expected to continue career in Germany after completion of funding period
- Previous track record, outstanding publication in high-ranking international specialist journals or comparable
- Funding for five years, in which they lead their own Independent Junior Research Group

1.1.5 Individual Grants Programme – other funding opportunities

- Heisenberg Programme -> tenured professorship
- Reinhart Koselleck Projects -> exceptionally innovative, higher-risk projects, researchers with a proven scientific track record
- Clinical Trials: joint programme by DFG and BMBF

- Workshops for Early Career Investigators -> workshop organizers are established researchers

1.1.6 Coordinated Programmes

- Collaborative Research Centres
- DFG Research Centres
- Research Training Groups
- Priority Programmes
- Research Units
- Clinical Research Units
- Humanities centres for Advanced Studies

1.2 Horizon Europe²

This is the current research and innovation funding programme of the European Commission until 2027. It is structured into three pillars:

- Pillar I Excellent Science: Here you will find the funding opportunities of the European Research Council, Marie Skłodowska-Curie Actions and Research Infrastructures
- Pillar II Global Challenges and European Industrial Competitiveness: Here you will find top-down thematic calls with respect to different thematical clusters
- Pillar II Innovative Europe: Here you will find the activities of the European Innovation Council, the European Innovation Ecosystems and the European Institute of Innovation and Technology.

In addition there is a part for widening participation and strengthening the European Research Area as well as a the European Defence Fund and the Euratom Research and Training Programme

1.3 BMBF³

- Funding of universities, research institutions and companies
- Thematic priorities with deadlines for specific calls in the fields of
- Hightech and innovation
- Environment and climate

² https://ec.europa.eu/info/research-and-innovation/funding/funding-opportunities/funding-programmes-and-open-calls/horizon-europe_en, 27.01.2022

³ https://www.bmbf.de/bmbf/en/research/research_node.html, 27.01.2022

- Health research
- Digital world
- Energy and economy
- Humanities and social sciences
- Work
- Natural sciences
- Education

1.4 Humboldt-Foundation⁴

- Sponsorship for postdoctoral scientists and scholars

Programmes for postdoctoral researchers coming to Germany

- Humboldt Research Fellowship for Postdoctoral Researchers from abroad for 6- 24 months research stay in Germany
- Georg Forster Research Fellowship for Postdoctoral Researchers for academics from developing countries

Programmes for postdoctoral research going abroad

- Feodor Lynen Research Fellowship for a 6 to 24 month stay abroad
- Research Fellowship from the Japan Society for the promotion of Science (JSPS) for German junior researchers, 6 to 24 months in Japan
- Research Fellowships from the National Science council, Taiwan for German junior researchers, 6 to 12 months, extension up to 3 years

1.5 Volkswagen Stiftung⁵

Independent, non-profit organization which has been funding research projects in all disciplines since 1962. In 2021 a new funding strategy has been developed and the funding instruments are currently under revision. The Volkswagen Stiftung has three profile areas:

- Understanding research – evaluation and science practice
- Exploration

⁴ <https://www.humboldt-foundation.de/bewerben/foerderprogramme/programme-a-bis-z> , 27.01.2022

⁵ <https://www.volkswagenstiftung.de/en/funding/the-volkswagen-foundations-new-funding-strategy> , 27.01.20212

- Societal Transformation

And the cross-sectional area “Science in Society”.

1.6 DAAD – Deutscher Akademischer Austauschdienst⁶

The DAAD provides funding for individual researchers and for institutional cooperations in research and teaching.

4 Foundations

In the following online portal you can search for German foundations:

<http://www.stiftungen.org/de/service/stiftungssuche.html>

More than 350 are dedicated to funding research in humanities and social sciences as well as in natural sciences. There are even more listed in the Verzeichnis Deutscher Stiftungen which is updated regularly and which you will probably be able to access from your university library.
