- **Currency:** *The timeliness of the information*
- When was the information published or posted?
- Has the information been revised or updated?
- Does your **topic/field require current information**, or will older sources work as well?
- Example: 1912 Spain – heroin used to treat pertussis (whooping cough)

It's a CRAAP!

- **Accuracy:** *The reliability, truthfulness and correctness of the content.*
- Is the information supported by evidence?
- Has the information been reviewed or refereed?
- Can you verify any of the information in another source?
- Does the language or tone seem free of emotion?
- Are there grammar or typographical errors?

Featured articles in Wikipedia

Featured articles are considered to be the best articles Wikipedia has to offer, as determined by [Wikipedia's editors](#). They are used by editors as examples for writing other articles. Before being listed here, articles are reviewed as [featured article candidates](#) for accuracy, neutrality, completeness, and style according to our [featured article criteria](#). There are **5,172** featured articles out of [5,498,979](#) articles on the English Wikipedia (~0.1% are featured). Thus, about one in 1,060 articles is listed here. Articles that no longer meet the criteria can be proposed for improvement or removal at [featured article review](#).

On non-mobile versions of our website, a small bronze star icon (★) on the top right corner of an article's page indicates that the article is featured. On most smartphones and tablets you can also "Request Desktop Site" to see this line (do a search to find out how). Additionally, if the current article is [featured in another language](#), a star will appear next to the corresponding entry in the Languages list in the sidebar (a [user preference](#) allows toggling this on/off under *Gadgets > Appearance*).

Mutiny on the *Bounty*

From Wikipedia, the free encyclopedia

This article is about the historical event. For other uses, see [Mutiny on the Bounty \(disambiguation\)](#).

The [mutiny](#) on the [Royal Navy](#) vessel [HMS *Bounty*](#) occurred in the south Pacific on 28 April 1789. Led by Acting Lieutenant [Fletcher Christian](#), disaffected crewmen seized control of the ship from their captain, Lieutenant [William Bligh](#), and set him and 18 loyalists adrift in the ship's open [launch](#). The mutineers variously settled on [Tahiti](#) or on [Pitcairn Island](#). Bligh meanwhile completed a voyage of more than 3,500 nautical miles (6,500 km; 4,000 mi) in the launch to reach safety, and began the process of bringing the mutineers to justice.

Bounty had left England in 1787 on a mission to collect and transport [breadfruit](#) plants from Tahiti to the [West Indies](#). A five-month layover in Tahiti, during which many of the men lived ashore and formed relationships with native [Polynesians](#), proved harmful to discipline. Relations between Bligh and his crew deteriorated after he began handing out increasingly harsh punishments, criticism and abuse, Christian being a particular target. After three weeks back at sea, Christian and others forced Bligh from the ship.

Henri de Toulouse-Lautrec

Henri-Marie-Raymond de Toulouse-Lautrec Monfa nebo také zkráceně **Henri de Toulouse-Lautrec** [ãvi də tuluz lotʁɛk] ^{IPA} (24. listopadu 1864 Albi – 9. září 1901 **Malromé**, poblíž **Bordeaux**) byl francouzský malíř a grafik, patřící k nejvýznamnějším tvůrcům konce 19. století. Pocházel ze slavného a starého francouzského šlechtického rodu hrabat z Toulouse.

Ve svém díle Toulouse-Lautrec navázal na **impresionismus** a **postimpresionismus**, zvláště na tvorbu **Edgara Degase**. Silný vliv na něho měl i **japonský dřevoryt**.^[1] Jeho výtvarný projev vyrostl z **kresby** a byl značně lineární. Významné jsou i jeho **grafické**, technikou **litografie** vytvářené práce, jimiž předznamenal a ovlivnil **secesi**, a to **plakáty**, volnými **grafickými listy** i dalšími produkty **užité grafiky**. Náměty Lautrecových děl vycházely především ze života na **pařížském Montmartru**. Malíř často zachycoval návštěvníky kabaretů, tanečnice, prostitutky a další lidi z okraje tehdejší společnosti.

Lautrecovo dílo je značně rozsáhlé – obsahuje 737 **olejomalb**, 275 **akvarelů**, 5 084 **kreseb** a 359 **litografií** (53 **vícebarevných** a 306 **jednobarevných**).^[2]

William Shakespeare. (2017). In *Encyclopædia Britannica*. Retrieved from <http://academic.eb.com/levels/collegiate/article/William-Shakespeare/109536>

William Shakespeare occupies a position unique in world literature. Other poets, such as Homer and Dante, and novelists, such as Leo Tolstoy and Charles Dickens, have transcended national barriers; but no writer's living reputation can compare to that of Shakespeare, whose plays, written in the late 16th and early 17th centuries for a small repertory theatre, are now performed and read more often and in more countries than ever before. The prophecy of his great contemporary, the poet and dramatist Ben Jonson, that Shakespeare "was not of an age, but for all time," has been fulfilled.

It may be audacious even to attempt a definition of his greatness, but it is not so difficult to describe the gifts that enabled him to create imaginative visions of
